

Carrollton-Farmers Branch ISD's Custodial Department has selected products that serve as the District standard for custodial supplies. Selection as the District's standard is based upon testing and evaluation by the Custodial Department to determine which products offer the best performance.

Substitutions or alternate products are not considered during the RFP process.

Your company may offer new products for evaluation by submitting a case sample to the Purchasing Office. The sample will be forwarded to the Custodial Department for testing and evaluation to determine if it will be selected as the new standard. You will be notified of the outcome of their evaluation.
